A Bumper Wheat Crop.

The Brand feels that it is useless to further argue that the Panhandle is a fine wheat country. To do so might leave the impression that there was some doubt as to the possibilities of the country. But now comes more evidence of the productivity of the soil of the Plains. H. H. Stanley, who lives on the Frio and some five miles from the city has just th a had t. e record breaking wheat crop, of the season, making an average of 35 1-3 bushels per acre. Mr. Stanley only had a small acreage, but he used the famous Campbell system of soil cultivation and gave special attention in every detail of the crop, beginning with the study of the co- dition of the soil and carrying out as far as possible the method ad- vocated by Mr. Campbell. That he has eminently succeeded cannot be disputed, and shows beyond a doubt that there has been sufficient rainfall in the Panhandle to raise a big wheat crop on every farm, if only the farmers had taken the trouble to save the moisture and keep the season for the use of the crops. —Hereford Brand.

While little acreage has yet been planted to wheat in Quay County, there is no reason why our close land will not produce as good as any section of the Panhandle or the southwest. The News would like to see a large acreage planted this fall.

The Mexican who was brought down from near Tucumcari several weeks ago to the hospital here, having been bitten by a rattle snake, had to have his arm amputated. Had he received proper attention in the first place it would not have been necessary, but his friends bound his arm tightly and stopped the circulation for a number of hours until he got to Alamogordo and gangrene set in. —Alamogordo Advertiser.

THE BARGAIN CORNER!

One of the most remarkable inventions of recent years is a GUIDE CHART to be used in connection with Dress Patterns. It is so simple that it is a wonder that it was not invented long ago. It is invaluable to all who use patterns. The patented GUIDE CHART is the exclusive property of the Ladies Home Journal Patterns, and gives them a great advantage over all other Patterns. Our store is now the home of the Ladies Home Journal Patterns.
